IS  
TH-  
AT  
ALL  
?

Getto's past nickname by Koyama was 'sango', which means coral and if the 'go' is lengthened (sangoh), it becomes 'number 3'. When Koyama recognizes Getto as that sango, he calls him by number sangoh not the coral sango as he did in the flashback.

But since I wanted to keep the image corals have, positive and full of color, I decided to make his nickname 'coral' in the translations instead of 'number three'.

I troubled over this choice for hours when first translating his nickname...

**BUT THAT DIDN'T  
PREVENT ME FROM  
GETTING GETTO'S  
REAL NAME WRONG**

is that a  
tear drop  
on Koyama's  
face or  
just a badly  
positioned  
sweat drop?
